Need an incentive to get in shape for summer? **Sophie Morris** presents the hottest gear for working up a sweat

THE 50 BEST essentials

**1 Adidas by Stella McCartney**

Mandie is a fan of Stella McCartney's Tennis Performance Hooded Jacket. "Court to café in one easy step," she says. "I love this sports-luxe sweat-wicking jacket as it's perfect for those not-so-sunny tennis days. You can throw it over anything to keep the weather out and it works well for other sports too."

2 Giant Chixie Bike

Sailing past the morning traffic on a stylish bike means a stress-free commute. "I love the brushed metal frame and blue rims of this city bike," says Mandie. "The 'fixed' option (when your pedals move at the same speed as your wheels) takes some getting used to, so ride it free-wheel until you get the hang of it."

3 Vibram Five Fingers

"Bare-foot running and training is the new thing," says Peter. "It helps to strengthen feet, reduce injuries and improve posture – but it will also tear apart soft British feet on our glass-strewn streets. Five Fingers provide the answer. They are basically a tough sole for your feet, and now they come in loads of cool colours and designs."

4 Pool-Mate

Thanks to the fitness entrepreneurs, you can now daydream your morning swim away instead of counting laps and lengths. "Counting laps while you're swimming can be tricky," says Peter. "This watch does it for you by having a directional sensor in it. No need to keep count or press buttons. It'll even keep track of your stroke rate."
